

## Division of Research

### **IMPORTANT: eProp/Evisions launches Jan. 3 for proposal and award activities**

**EFFECTIVE JANUARY 3, 2017 - ALL INTERNAL AND EXTERNAL FUNDING OPPORTUNITIES WILL BE CREATED, APPROVED AND PROCESSED VIA ePROP/EVISIONS.**

To provide the highest level of support of research at Wayne State University, Sponsored Program Administration is pleased to announce the launch of eProp/Evisions effective January 3, 2017. eProp/Evisions will track research proposal and award activity, provide for streamlined internal routing and approval of proposals, facilitate submission to sponsor systems (Grants.gov), and store proposal documents.

eProp/Evisions will allow users expanded access to proposal development, submission, and award information through a very simple, user-friendly interface.

The system includes the following features:

- Extra validations and error checking to ensure proposal will be error free upon submission to Grants.gov
- System-to-system data transmission for >95% of all Grants.gov opportunities
- Budget builder tool includes fringe benefits, F&A rates, inflation rates, and multi-year replication
- Proposal development (budget, narrative, compliance questions)
- Re-use data and copy proposals
- Robust routing and approval
- Database of all sponsored program activity
- Tracking of proposals and awards to subcontractors
- Intuitive user interface

Processes and navigation in eProp/Evisions are similar to eProp/Coeus. In order to provide the most seamless transition possible, continuing training sessions will be offered for all faculty and administration. For more information regarding eProp/Evisions and training opportunities, please contact Tim Foley, [tpfoley@wayne.edu](mailto:tpfoley@wayne.edu) or 577-3726. Or, visit the [SPA eProp/Evisions webpage](#).

***IF YOU HAVE A PROPOSAL THAT IS DUE THE WEEK OF JANUARY 2 AND YOU WISH TO COMMENCE WORK ON THE PROPOSAL BETWEEN NOW AND JANUARY 3, PLEASE USE ePROP/COEUS. PLEASE ENSURE THAT YOUR SPA GRANT AND CONTRACT OFFICER IS AWARE OF THE PROPOSAL IN COEUS SO THAT THEY MAY COMPLETE THE REVIEW AND APPROVAL PROCESS. OTHERWISE, YOU CAN INITIATE A PROPOSAL IN EVISIONS ON JANUARY 3, 2017.***
