Health and Aging Policy Fellows Program	2017-18 fellowships	4/17/17	Aging Policy	Varies	Stipends for residential fellows vary and are commensurate with each individual's current base salary (up to \$100,000 annually). In addition to a stipend, financial support will be provided for relocation (up to \$4,500), and health insurance (up to \$400/month), if not covered by the institution. Non-residential fellows may receive up to \$10,000 to cover approved project related expenses and travel costs. Non-residential applicants who are early in their career and cannot secure full institutional in-kind support for their fellowship participation may apply for partial salary support from the Health and Aging Policy Fellows Program, up to a maximum of \$15,000.	The year-long program is designed to provide healthcare professionals with the experience and skills needed to make a positive contribution to the development and implementation of health policies affecting older Americans. Fellows also have the opportunity to apply for second-year funding to pursue a component(s) of their fellowship experience/project at their placement site, at the state/local levels, or with a nongovernmental organization.	Emailed application packet	<a href="http://www.healthandagingpolicy.org/">http://www.healthandagingpolicy.org/</a>	Guidelines and instructions: <a href="http://www.healthandagingpolicy.org/how-to-apply/">http://www.healthandagingpolicy.org/how-to-apply/</a>
March of Dimes	Research grant	4/30/17	Pre-term birth	\$100,000+	There is no set amount for a general MOD research grant, although the typical grant award is approximately \$100,000 per year. Although grants are not intended to cover the principal investigator's or other faculty salaries, they can be used to provide salary support for technical help. Grants are usually awarded for a three-year period but may be for less if appropriate.	Research grants relevant to its mission of helping moms have full-term pregnancies as well as supporting research on the problems that threaten the health of babies. This includes the biological processes governing differentiation and development, the genetics and genomics of these processes, clinical studies, reproductive health and environmental toxicology, and social and behavioral studies concerning cognitive and behavioral risks that affect outcomes of pregnancy, the perinatal period, and subsequent child development.	LOI submitted via website	<a href="http://www.marchofdimes.org/glue/css-images/notes/research-program-request-for-proposals.pdf">http://www.marchofdimes.org/glue/css-images/notes/research-program-request-for-proposals.pdf</a>	Guidelines and Instructions: <a href="http://www.marchofdimes.org/glue/css-images/notes/NASFAQs.pdf">http://www.marchofdimes.org/glue/css-images/notes/NASFAQs.pdf</a>
American Society for Hematology (ASH)	Bridge Funding	5/1/17	Hematology	\$150,000	The Bridge Grants program will provide at least thirty one-year awards annually, in the amount of \$150,000 each, to ASH members who applied for an NIH R01 grant or equivalent but were denied funding due to budget cuts. Grants support projects in basic, translational, patient-oriented, and outcomes-based research.	ASH is accepting proposals from hematologists whose research would not otherwise be accomplished due to cuts in funding from the National Institutes of Health. Established in January 2013, the long-term goal of the program is to help sustain recipients' research and keep them engaged in hematology investigation.	Online application	<a href="http://www.hematology.org/Awards/Career-Training/407.aspx">http://www.hematology.org/Awards/Career-Training/407.aspx</a>	Application link: <a href="https://awards.hematology.org/">https://awards.hematology.org/</a>
Foundation for Physical Medicine and Rehabilitation	Aspen Medical Products Spinal Bracing Research Grant	5/1/17	Spinal Bracing	\$10,000	To be eligible, applicants must be a member of the American Academy of Physical Medicine and Rehabilitation or the Association of Academic Physiatrists.	Grants in support of research on a topic related to use of spinal bracing in physical medicine and rehabilitation. Priority will be given to applications focused on outcomes and/or comparative effectiveness research.	Emailed Application	<a href="http://foundationforpmr.org/aspennmedical-products-spinal-bracing-research-grant-2016/">http://foundationforpmr.org/aspennmedical-products-spinal-bracing-research-grant-2016/</a>	Org site: <a href="http://foundationforpmr.org/">http://foundationforpmr.org/</a>

Patrick and Catherine Weldon Donaghue Medical Research Foundation	2017 Greater Value Portfolio grant program	5/1/17	Improved health care delivery	\$600,000	Letters of Intent must be received no later than May 1, 2017. Upon review, selected applicants will be invited to submit a full application by July 31, 2017. Through the program, the foundation will award three-, four-, and five-year grants of up to \$600,000 for projects with an innovative approach to achieving a higher-value healthcare system. The goal of the program is to test new approaches and tools that organizations can readily use to improve the value of the health care they provide to their patients and communities.	Eligible topics include strategies that significantly increase the value of traditionally high-cost procedures through mechanisms such as medical tourism or specialty treatment centers; methods or approaches that reduce routine treatments, tests, and screenings for patients for whom the potential harms (including financial) outweigh potential benefits; efforts to provide consumers with the tools to make decisions about their health care that are based on value in addition to other patient-centered factors; strategies that encourage providers and their patients with serious illnesses to engage in difficult conversations about preferences and trade-offs related to alternative treatment options; among others	LOI submitted via email	<a href="http://donaghue.org/wp-content/uploads/Greater-Value-Grant-Announcement-2017.pdf">http://donaghue.org/wp-content/uploads/Greater-Value-Grant-Announcement-2017.pdf</a>	Org site: <a href="http://donaghue.org/">http://donaghue.org/</a>
PSC Partners Seeking a Cure	Research Grants	5/1/17	Primary sclerosing cholangitis	\$60,000	The foundation offers grants of up to \$60,000 over two years for research projects that address an important and novel, basic, or clinical research question related to PSC and closely allied diseases (such as inflammatory bowel diseases, ulcerative colitis, or Crohn's disease) as they relate to PSC.	Preference will be given to projects that have the potential to identify a cure for the disease and/or identify novel therapies that may significantly delay the time to liver transplantation, prevent disease recurrence following liver transplantation, and/or improve quality of life for those with PSC.	Emailed application as pdf	<a href="http://pscpartners.org/research-grants/grant-application/">http://pscpartners.org/research-grants/grant-application/</a>	Previous recipients: <a href="http://pscpartners.org/research-grants/">http://pscpartners.org/research-grants/</a>
The Lalor Foundation	The Anna Lalor Burdick Program	5/1/17	Reproduction Education	\$35,000	Does not support general operations. Concept paper submission first. Full application only by invitation. The program focuses particularly on young women who have inadequate access to information regarding sexual and reproductive health, including comprehensive and unbiased information on contraception and pregnancy termination.	Seeks to empower young women through education about healthy reproduction in order to broaden and enhance their options in life. The program focuses particularly on young women who have inadequate access to information regarding sexual and reproductive health, including comprehensive and unbiased information on contraception and pregnancy termination.	Online Application	<a href="http://lalfound.org/anna-lalor-burdick-program/application-guidelines/">http://lalfound.org/anna-lalor-burdick-program/application-guidelines/</a>	Guidelines and instructions: <a href="http://lalfound.org/anna-lalor-burdick-program/application-guidelines/">http://lalfound.org/anna-lalor-burdick-program/application-guidelines/</a>
WSU OVPR	Faculty Competition for Postdoctoral Fellows	5/1/17	Postdoctoral Fellows	\$60,000	This initiative will provide matching funds of up to \$30,000 per year for a maximum of \$60,000 for two years to support the requested postdoctoral position. These postdoctoral positions will be awarded directly to faculty on a university-wide competitive basis for support of their research/scholarship and training endeavors. It is required that sufficient matching funds be committed at the time of application. Matching funds may come from sources such as applicant's department or college, grant support, or start-up funds.	The Office of the Vice President for Research (OVPR) has created the Faculty Competition for Postdoctoral Fellows to enhance the productivity of WSU faculty by augmenting their capacity to attract and support postdoctoral fellows. Eligibility to receive a postdoctoral position is limited to full-time WSU faculty members with active research interests and responsibilities. Postdoctoral candidate must be a U.S. citizen or permanent resident and must be a new hire.	Requests should be submitted through our eProp system	<a href="http://research.wayne.edu/development/internal-funding.php">http://research.wayne.edu/development/internal-funding.php</a>	Guidelines and instructions: <a href="http://research.wayne.edu/development/internal-funding-programs/faculty-competition-for-postdoctoral-fellows-cover-sheet.pdf">http://research.wayne.edu/development/internal-funding-programs/faculty-competition-for-postdoctoral-fellows-cover-sheet.pdf</a>
American Speech-Language-Hearing Association	Multicultural Activities grants program	5/5/17	Multicultural language and hearing programs	\$15,000	The annual program supports projects designed to bring multicultural components to ASHA's clinical, educational, and professional programs and the activities of allied/related associations and organizations. It is expected that the average individual award will range between \$7,000 and \$10,000, with a maximum of \$15,000 for a single grant.	Projects must have multicultural focus. "Multicultural" is defined to include issues dealing with race, ethnicity, national origin, culture, language, dialect, gender, gender identity, age, sexual orientation, socioeconomic status, religion, and ability. Preference will be given to projects that respond to ASHA's Envisioned Future: 2025 and ASHA's Strategic Pathway to Excellence.	Online application via portal	<a href="http://www.asha.org/Practice/multicultural/funding/rfp/">http://www.asha.org/Practice/multicultural/funding/rfp/</a>	All information on website
American Psychological Foundation	2016 Violet and Cyril Franks Scholarship	5/15/17	Mental Health (graduate-student)	\$5,000	The \$5,000 scholarship supports research which shows that stigma is a significant barrier to treatment and recovery for many of the 50 million Americans living with mental illness.	The annual program supports graduate-level scholarly projects that use a psychological lens to help understand and reduce stigma associated with mental illness.	Online application	<a href="http://www.apa.org/apf/funding/frank.aspx">http://www.apa.org/apf/funding/frank.aspx</a>	Application portal: <a href="https://www.grantinteface.com/Common/LogOn.aspx?eqs=oVBumf2XVy_khnUFBO6zvQ2">https://www.grantinteface.com/Common/LogOn.aspx?eqs=oVBumf2XVy_khnUFBO6zvQ2</a>

Society for Neuroscience	2017 Peter and Patricia Gruber International Research Award	5/19/17	Neurosciences	\$25,000	To be eligible, nominees must be a graduate student, postdoctoral fellow or research associate who is a citizen or permanent resident of the United States studying or working at an institution located outside the United States. In addition, applicants must be actively engaged in research at the time of the award. Self-nominations will not be considered.	Supported by the Gruber Foundation, the annual award program recognizes the outstanding research and educational pursuits of two young scientists working in an international setting. Recipients of the award will receive a \$25,000 cash prize and complimentary registration, transportation (economy air or ground), and two nights hotel accommodations for the SfN annual meeting.	Nominations submitted online	<a href="http://www.sfn.org/Awards-and-Funding/Individual-Prizes-and-Fellowships/Young-Scientists-Achievements-and-Research/Peter-and-Patricia-Gruber-International-Research-Award">http://www.sfn.org/Awards-and-Funding/Individual-Prizes-and-Fellowships/Young-Scientists-Achievements-and-Research/Peter-and-Patricia-Gruber-International-Research-Award</a>	Org site: <a href="http://www.sfn.org/">http://www.sfn.org/</a>
Alex's Lemonade Stand Foundation	Reach Awards	5/22/17	Pediatric Oncology	\$250,000	A successful application will identify an unmet clinical need relevant to the care of patients with pediatric cancer and describe how the work performed will allow for the translation of hypothesis-driven research to the clinic keeping broader clinical testing and implementation in view. Grants of up to \$250,000 will be awarded over two years.	Aims to advance its mission to find cures and better treatments for childhood cancers by providing support to move hypothesis-driven research into the clinic. To that end, the program supports late translational studies needed to ultimately initiate a clinical trial. Priority will be given to those research projects which, if funded, will result in the initiation of a clinical trial within two to three years.	Online application	<a href="https://www.alexslimonade.org/grants/guidelines">https://www.alexslimonade.org/grants/guidelines</a>	Guidelines and instructions: <a href="https://www.alexslimonade.org/sites/default/files/2017_reach_guidelines_final.pdf">https://www.alexslimonade.org/sites/default/files/2017_reach_guidelines_final.pdf</a>
Doris Duke Charitable Foundation	Doris Duke Sickle Cell Disease/Advancing Cures award	5/25/17	Sickle Cell	\$900,000	The foundation seeks to support about eight, three-year research projects through Sickle Cell Disease/Advancing Cures awards. Flexible, annual direct-cost amounts of \$150,000 to \$300,000 will be considered, plus a 10 percent annual indirect cost allowance.	Grants to advance curative approaches for sickle cell disease including, gene modification and drug therapies to restore hemoglobin function. This program aims to support clinical research that will: Advance gene therapies for sickle cell disease into the clinic, including gene addition and genome editing; Build on globin regulatory mechanisms to restore red blood cell function.	Online application via portal	<a href="http://www.ddcf.org/what-we-fund/medical-research/goals-and-strategies/advance-biomedical-research-and-innovation/sickle-cell-disease-advancing-cures/">http://www.ddcf.org/what-we-fund/medical-research/goals-and-strategies/advance-biomedical-research-and-innovation/sickle-cell-disease-advancing-cures/</a>	Guidelines and instructions: <a href="http://www.ddcf.org/globalassets/medicalresearch/scd-ac/2017-scd-ac/2017-scd-ac-rfa.pdf">http://www.ddcf.org/globalassets/medicalresearch/scd-ac/2017-scd-ac/2017-scd-ac-rfa.pdf</a>
Tell Every Amazing Lady About Ovarian Cancer Louisa M. McGregor Ovarian Cancer Foundation (T.E.A.L.)	2017 Medical Research Program	5/31/17	Ovarian Cancer	\$60,000	Requests for funding of up to \$60,000 per year will be considered. Project costs must be thoroughly outlined in the budget portion of this application	Funding in support of ovarian cancer research studies that are most aligned with that mission as determined by the T.E.A.L.® board of directors and a scientific advisory committee.	Online application	<a href="https://docs.google.com/forms/d/e/1FAIpQLSfnlhBYzs8Z56mUGgW4_wzqyPI8VPK82qygpMO6paAYB5yBjg/viewform?c=0&amp;w=1">https://docs.google.com/forms/d/e/1FAIpQLSfnlhBYzs8Z56mUGgW4_wzqyPI8VPK82qygpMO6paAYB5yBjg/viewform?c=0&amp;w=1</a>	Org. site: <a href="http://www.tealwalk.org/site/c.aITK8NHLdJ2E/b.7930599/k.BFDC/Home.htm">http://www.tealwalk.org/site/c.aITK8NHLdJ2E/b.7930599/k.BFDC/Home.htm</a>

American Psychiatric Association	Kempf Fund Award for Research Development in Psychobiological Psychiatry	6/1/17	Schizophrenia	\$21,500	A \$1,500 award will be made to the senior researcher, and \$20,000 will support the research career development of a young research psychiatrist working in a mentor-trainee relationship with the award winner on further research in this field.	The annual award recognizes a senior researcher who has made a significant contribution to research on the causes and treatment of schizophrenia as both a researcher and a mentor.	Emailed proposal packet	<a href="https://www.psychiatry.org/psychiatrists/awards-leadership-opportunities/awards/kempf-fund-award">https://www.psychiatry.org/psychiatrists/awards-leadership-opportunities/awards/kempf-fund-award</a>	Past recipients: <a href="https://www.psychiatry.org/psychiatrists/awards-leadership-opportunities/awards/award-recipients">https://www.psychiatry.org/psychiatrists/awards-leadership-opportunities/awards/award-recipients</a>
Gerber Foundation	Research Grants	6/1/17	Pediatric health	\$350,000	The total requested grant size should be no more than \$350,000. Priority is given to projects offering a substantial promise of meaningful advances in prevention and treatment of diseases, as well as those with broad applicability to the general population on a regional or national level.	The foundation is accepting concept papers for health and/or nutrition-related research projects with potential to have a significant impact on issues affecting infants and young children from birth to three years of age.	Online application (registration required)	<a href="http://www.gerberfoundation.org/fag/">http://www.gerberfoundation.org/fag/</a>	Application link: <a href="https://gerberfoundation.smartsimple.com/s_Login.jsp">https://gerberfoundation.smartsimple.com/s_Login.jsp</a>
Children's Heart Foundation	Research Grant	6/2/17	Pediatric Cardiology	\$200,000	Grants of up to \$100,000 per year for a maximum of two years. The foundation's medical advisory board will review proposals by late fall 2017, with those recommended for a grant receiving their awards in December.	Awards for new research in the areas of molecular genetics/biochemistry, devices/procedural research (catheterization and surgical), and long-term care of children with congenital heart defects as they become adults.	Mailed application with hard copies and CD	<a href="http://www.childrensheartfoundation.org/sites/default/files/2017%20Call%20for%20Proposals.pdf">http://www.childrensheartfoundation.org/sites/default/files/2017%20Call%20for%20Proposals.pdf</a>	Org site: <a href="http://www.childrensheartfoundation.org/">http://www.childrensheartfoundation.org/</a>
American Psychological Foundation	David Wechsler Early Career Grant for Innovative Work in Cognition	6/15/17	Psychology (early career)	\$25,000	Through the annual program, a single grant of up to \$25,000 will be awarded	Grant for an early-career psychologist pursuing innovative work in neuropsychology, intelligence, and/or the assessment aspects of cognition. Those who work on positive applied neuropsychology are encouraged to apply.	Online application	<a href="http://www.apa.org/apf/funding/wechsler.aspx">http://www.apa.org/apf/funding/wechsler.aspx</a>	Past recipients: <a href="http://www.apa.org/apf/funding/wechsler.aspx?tab=4">http://www.apa.org/apf/funding/wechsler.aspx?tab=4</a>
Muscular Dystrophy Association	Research Grants	6/15/17	Muscular Dystrophy	\$300,000	Letters of Intent for its bi-annual Research Grants program, which awards grants to established investigators in support of projects aimed at developing treatments for muscular dystrophies and related diseases of the neuromuscular system. Awards are typically in the amount of \$100,000 per year for one to three years.	Health agency dedicated to finding treatments and cures for muscular dystrophy, amyotrophic lateral sclerosis (ALS), and other neuromuscular diseases. It advances this mission by funding worldwide research; by providing comprehensive health care services and support to MDA families nationwide; and by rallying communities to fight back through advocacy, fundraising, and local engagement.	Online application via portal	<a href="https://www.mda.org/research/funding-opportunities">https://www.mda.org/research/funding-opportunities</a>	Guidelines and instructions: <a href="https://www.mda.org/sites/all/themes/mda_bootstrap_subtheme/pdf/RESEARCH-GRANT-APP-INSTRUCTIONS-071416.pdf">https://www.mda.org/sites/all/themes/mda_bootstrap_subtheme/pdf/RESEARCH-GRANT-APP-INSTRUCTIONS-071416.pdf</a>
American College of Psychiatrists	Award for Creativity in Psychiatric Education	6/30/17	Psychiatry	Not listed	The award consists of a grant and a certificate. In addition, the award covers the expenses of one representative from the winning program for travel, hotel, and free registration at ACP's annual meeting.	The award is open to any creative/innovative psychiatric education program that has been in operation for at least two years and has been a part of a United States or Canadian approved psychiatric residency training program.	Mailed application	<a href="http://www.acpsych.org/awards/education-award-applications-deadline-december-1">http://www.acpsych.org/awards/education-award-applications-deadline-december-1</a>	Application and past winners on website

Children's Leukemia Research Association	Research Grants	6/30/17	Pediatric-Leukemia	\$30,000	Grants of up to \$30,000. Funding from other sources is permissible, but CLRA funding objectives should not duplicate those funded by other sources.	Funds will be awarded for the most promising projects with the shared goal of isolating the causes of and finding a cure for childhood leukemia.	Mailed application (original plus 3 copies)	<a href="http://www.childrensleukemia.org/researchgrants.html">http://www.childrensleukemia.org/researchgrants.html</a>	Application: <a href="http://www.childrensleukemia.org/CLRAGrantApplication.pdf">http://www.childrensleukemia.org/CLRAGrantApplication.pdf</a>
American Society for Dermatologic Surgery	Cutting Edge Research Grant Program (CERG)	7/3/17	Dermatology-surgery	\$20,000	The Cutting Edge Research program will accept applications Feb. 1 - July 3, 2017. Up to \$100,000 in grants will be awarded in amounts up to \$20,000 per recipient in order to stimulate a broad scope of research relevant to dermatologic surgeons and the dermatology specialty at large. Awards will be announced at the ASDS Annual Meeting, Oct. 5 - 8, 2017, in Chicago.	Unites education and innovation to encourage and stimulate clinical research and the transfer of new technologies from the research settings to surgical practice	Online Application	<a href="https://www.asds.net/EducationPage.aspx?id=1264&amp;terms=grant">https://www.asds.net/EducationPage.aspx?id=1264&amp;terms=grant</a>	Previous recipients: <a href="https://www.asds.net/DoctorResources.aspx?id=9826">https://www.asds.net/DoctorResources.aspx?id=9826</a>
Rheumatology Research Foundation	2017 Scientist Development Award	7/3/17	Arthritis and rheumatic diseases	\$675,000	Grants of up to \$225,000 for up to three years will be awarded to individuals in the early stages of their careers or those without significant prior research experience who plan to embark on a career in biomedical and/or clinical research in arthritis and rheumatic diseases.	The goal of funding at this level is to provide an opportunity for young scientists to embark on focused research and research training that will allow them to be competitive for the next level of career development awards. Through the program, the foundation aims to provide a means for ensuring more qualified, highly-trained investigators in the field of rheumatology.	Application submitted via online portal	<a href="https://www.rheumresearch.org/file/awards/2017/SDA-FY19-Request-for-Applications.pdf">https://www.rheumresearch.org/file/awards/2017/SDA-FY19-Request-for-Applications.pdf</a>	Online portal: <a href="https://app.wizehive.com/appform/login/sda">https://app.wizehive.com/appform/login/sda</a>
Damon Runyon Cancer Research Foundation	Innovation Award	7/6/17	Cancer- early career	\$300,000	Grant for 2 years. Eligibility for 3rd and 4th year funding are based upon results from the first 2 years. Application materials should be submitted to the Damon Runyon Cancer Research Foundation for arrival at our offices by 4:00 pm (ET) on July 1, 2016. Along with the original full proposal (one hard copy), applicants must submit a USB flash drive of all the required materials.	Support for the next generation of exceptionally creative thinkers with "high-risk/high-reward" ideas that have the potential to significantly impact our understanding of and/or approaches to the prevention, diagnosis or treatment of cancer.	Mailed application	<a href="https://www.damonrunyon.org/for-scientists/application-guidelines/innovation">https://www.damonrunyon.org/for-scientists/application-guidelines/innovation</a>	Guidelines and Instructions: <a href="https://www.damonrunyon.org/for-scientists/application-guidelines/innovation/forms">https://www.damonrunyon.org/for-scientists/application-guidelines/innovation/forms</a>
WSU OVPR	Bridge Funding	7/10/17	Bridge Funding	\$50,000	The size of the award will not exceed \$50,000. Applicants may only apply for one year's funding at a time. Faculty salary cannot be supported through this mechanism. A letter of support will be required from the department chair, dean or director responsible for providing salary and space support to the applicant. If you have questions about the particular funding program, contact Sarah James at <a href="mailto:sjames@wayne.edu">sjames@wayne.edu</a> or 313-577-8997.	WSU's Bridge Funding Program is designed to sustain research projects with interrupted extramural funding by providing one-time support to eligible Principal Investigators (PIs) – assistant, associate and full professors – to assist with re-establishing external funding (e.g. NSF, NIH, DOD, etc.).	Requests should be submitted through our eProp system	<a href="http://research.wayne.edu/development/internal-funding.php">http://research.wayne.edu/development/internal-funding.php</a>	Guidelines and instructions: <a href="http://research.wayne.edu/development/internal_funding_programs/bridge_funding_program_cover_sheet.pdf">http://research.wayne.edu/development/internal_funding_programs/bridge_funding_program_cover_sheet.pdf</a>

Little Giraffe Foundation	Letters of Intent for 2017	7/14/17	Neonatal Research	\$10,000	Grants of up to \$10,000 will be awarded to qualified scientists, doctors, and nurses at universities, hospitals, and research institutions. Potential applicants must submit a Letter of Intent summarizing the proposed studies no later than July 14, 2017. Select applicants will then be invited to submit complete applications.	Grants in support of research that addresses both the long-term and immediate health needs caused by premature birth as well as the causes of premature birth and ways to prevent it. Research subjects appropriate for support include basic biological processes governing development, genetics, clinical studies, studies of reproductive health, environmental toxicology, and social and behavioral studies.	Emailed LOI	<a href="http://www.littlegiraffeoundation.org/Neonatal-Research-Initiative-Request-For-Proposals">http://www.littlegiraffeoundation.org/Neonatal-Research-Initiative-Request-For-Proposals</a>	Reporting requirements: <a href="http://www.littlegiraffeoundation.org/Neonatal-Research-Progress-Reporting-Requirements">http://www.littlegiraffeoundation.org/Neonatal-Research-Progress-Reporting-Requirements</a>
Starkey Hearing Foundation	Program Grants	7/15/17	Hearing Health	Not listed	We use hearing as a vehicle to change lives around the world. If interested in applying for a grant, email <a href="mailto:grants@starkeyfoundation.org">grants@starkeyfoundation.org</a> or call 952.947.4575.	The foundation awards grants in the area of hearing healthcare, however, related areas such as health, human services, education, and community projects are also considered.	Email contact for application if interested in applying	<a href="https://www.starkeyhearingfoundation.org/Grants-Program">https://www.starkeyhearingfoundation.org/Grants-Program</a>	Org site: <a href="https://www.starkeyhearingfoundation.org/Who-We-Are">https://www.starkeyhearingfoundation.org/Who-We-Are</a>
National Ataxia Foundation	Research Grants	7/17/17	Ataxia	\$30,000	NAF will award seed grants of up to \$15,000 for ataxia-related research projects. Grants of up to \$30,000 will be considered for early or pilot phases of studies and ongoing investigations. LOIs must be received no later than July 17, 2017. Upon review, selected applicants will be invited to submit a full application no later than August 15, 2017.	The National Ataxia Foundation (NAF) is committed to funding the best science relevant to hereditary and sporadic types of ataxia in both basic and translational research.	Emailed as pdf	<a href="http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia">http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia</a>	Previously funded research: <a href="http://www.ataxia.org/research/naf-research-2016.aspx">http://www.ataxia.org/research/naf-research-2016.aspx</a>
National Ataxia Foundation	NAF Young Investigator Awards	7/17/17	Ataxia (early-career)	\$50,000	The Young Investigator Award provides one-year grants of \$35,000 to encourage young investigators to pursue a career in the field of ataxia research; and the Young Investigator Award for SCA Research provides one-year grants of \$50,000 to encourage young investigators to pursue a career in spinocerebellar ataxia research.	The National Ataxia Foundation (NAF) is committed to funding the best science relevant to hereditary and sporadic types of ataxia in both basic and translational research.	Emailed as pdf	<a href="http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia">http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia</a>	Previously funded research: <a href="http://www.ataxia.org/research/naf-research-2016.aspx">http://www.ataxia.org/research/naf-research-2016.aspx</a>
Research Foundation of the American Society of Colon and Rectal Surgeons	RFP Clinical Studies on Benign Colorectal Disorders	8/1/17	Colorectal surgery	Not listed	Grant amount determined by the Research Foundation Board of Trustees	To foster outstanding research in specific areas of colorectal diseases or disorders leading to the improvement and management of common, yet understudied colorectal problems.	Mailed and emailed application	<a href="https://www.fascrs.org/sites/default/files/rfp_criteria_and_application_instructions.pdf">https://www.fascrs.org/sites/default/files/rfp_criteria_and_application_instructions.pdf</a>	Org site: <a href="https://www.fascrs.org/research-foundation-about-us">https://www.fascrs.org/research-foundation-about-us</a>
Society of Critical Care Medicine	Grenvik Family Award for Ethics Award	8/1/17	Ethics in Critical Care Medicine	\$1,000	The prize recipient receives \$1,000 and complimentary registration to attend the Critical Care Congress.	Candidates are nominated for the award by an SCCM member or members of the Award Subcommittee. To be eligible, nominees must have made significant contributions toward addressing ethical problems in critical care	Emailed nomination	<a href="http://www.sccm.org/Member-Center/Awards/Pages/Grenvik-Family-Award-for-Ethics.aspx">http://www.sccm.org/Member-Center/Awards/Pages/Grenvik-Family-Award-for-Ethics.aspx</a>	All information on website

Meso Foundation	Mesothelioma research grant	8/5/17	Mesothelioma	\$100,000	Grants of up to \$100,000 over two years will be awarded to qualified investigators for projects related to benchwork, translational, or clinical research that are not presently funded or pending review and are conducted through a nonprofit academic, medical, or research institution.	Encouraged projects include but are not limited to investigations of strategies for early detection of new or progressive disease, definition of targetable differences between normal and transformed mesothelium and development of novel strategies for treatment, therapeutic intervention, and determination of clinical/molecular determinants for prognosis.	Application submitted via online portal	<a href="http://www.curemeso.org/site/c.dulWJfNQkiL8G/b.8578449/k.2D6B/Grants_for_Mesothelioma_Research.htm">http://www.curemeso.org/site/c.dulWJfNQkiL8G/b.8578449/k.2D6B/Grants_for_Mesothelioma_Research.htm</a>	Org site: <a href="http://www.curemeso.org/site/c.dulWJfNQkiL8G/b.8598593/k.D685/Homepage.htm">http://www.curemeso.org/site/c.dulWJfNQkiL8G/b.8598593/k.D685/Homepage.htm</a>
National Ataxia Foundation	NAF Research Post-Doc Fellowship Award	8/15/17	Ataxia	\$35,000	One-year grants up to \$35,000. LOIs must be received no later than August 15, 2017. Upon review, selected applicants will be invited to submit a full application no later than September 15, 2017.	Applicants should have completed at least one year of post-doctoral training but not more than two at the time of application, and should have shown a commitment to research in the field of ataxia.	Emailed as pdf	<a href="http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia">http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia</a>	Previously funded research: <a href="http://www.ataxia.org/research/naf-research-2016.aspx">http://www.ataxia.org/research/naf-research-2016.aspx</a>
National Ataxia Foundation	NAF Pioneer SCA Research Award Awards	8/15/17	Ataxia	\$100,000	Provides a one-year grant of \$100,000. LOIs must be received no later than August 15, 2017. Upon review, selected applicants will be invited to submit a full application no later than September 15, 2017.	Grant in support of research designed to facilitate the development of treatments for spinocerebellar ataxias	Emailed as pdf	<a href="http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia">http://www.ataxia.org/research/ataxia-research-grants.aspx#crtfia</a>	Previously funded research: <a href="http://www.ataxia.org/research/naf-research-2016.aspx">http://www.ataxia.org/research/naf-research-2016.aspx</a>
The Scleroderma Foundation	Pilot Research Grant	9/15/17	Scleroderma	\$150,000	Applicants may request up to \$75,000 per year for up to two years. The grant will support research that is likely to lead to more substantial unlimited research project grants from federal or non-federal sources.	Applications from promising established investigators both inside and outside the field of scleroderma research for pilot studies designed to obtain preliminary data concerning an innovative and/or highly relevant disease-related approach.	LOI can be submitted via email, mail or fax	<a href="http://www.scleroderma.org/site/PageServer?pagename=prof_research_types#established">http://www.scleroderma.org/site/PageServer?pagename=prof_research_types#established</a>	Guidelines and Instructions: <a href="http://www.scleroderma.org/site/PageServer?pagename=prof_research_collaborative#WOKL42_yvcs">http://www.scleroderma.org/site/PageServer?pagename=prof_research_collaborative#WOKL42_yvcs</a>
American Psychological Foundation	Lizette Peterson Homer Memorial Injury Research Grant	10/1/17	Pediatric psychology	\$5,000	A single grant of up to \$5,000 will be awarded in 2017. To be eligible, applicants must be a student and/or faculty member at an accredited university in the United States and demonstrate research competence and a commitment to the study of injury prevention in children.	Supports research into the psychological and behavioral aspects of the prevention of injuries in children and adolescents as reflected in the activities and interests within pediatric psychology of the late Lizette Peterson-Homer and her commitment to improving the status of children. Specifically, the grant supports research related to the prevention of injuries in children and adolescents through accidents, violence, abuse, or suicide.	Application packet submitted online	<a href="http://www.apa.org/apf/funding/peterson-homer.aspx">http://www.apa.org/apf/funding/peterson-homer.aspx</a>	Past Awardees: <a href="http://www.apa.org/apf/funding/peterson-homer.aspx?tab=4">http://www.apa.org/apf/funding/peterson-homer.aspx?tab=4</a>
Research Foundation of the American Society of Colon and Rectal Surgeons	Career Development Award	10/1/17	Early career-colorectal surgery	\$150,000	Grants of up to \$75,000 per year for two years will be awarded through the program. To be eligible, applicants must be within five years of their first full-time faculty appointment in the United States or a Canadian government agency or public or private nonprofit medical institution	Provides young surgeons with the support necessary for the initiation and development of an academic career in colorectal surgery. The CDA focuses on career development and mentorship of the individual rather than solely on the research proposal. The award is intended for the academic investigator demonstrating significant creativity in research relevant to the pathophysiology or management of diseases of the small bowel, colon, rectum, or anus.	Mailed and emailed application	<a href="https://www.fascrs.org/sites/default/files/cda_criteria_and_application_instructions.pdf">https://www.fascrs.org/sites/default/files/cda_criteria_and_application_instructions.pdf</a>	Org site: <a href="https://www.fascrs.org/research-foundation-about-us">https://www.fascrs.org/research-foundation-about-us</a>

Research Foundation of the American Society of Colon and Rectal Surgeons	Limited Project Grant	10/1/17	Colorectal surgery	\$50,000	The proposed research must be investigator-initiated, hypothesis-driven	To provide investigator the opportunity to pursue research interest, specifically germane to the field of colon and rectal surgery. It is anticipated that successful research projects, initially funded through the Research Foundation's LPG mechanism, will ultimately secure funding from other national funding agencies.	Mailed application	<a href="https://www.fascrs.org/sites/default/files/lpg_criteria_and_application_instructions.pdf">https://www.fascrs.org/sites/default/files/lpg_criteria_and_application_instructions.pdf</a>	Org site: <a href="https://www.fascrs.org/research-foundation-about-us">https://www.fascrs.org/research-foundation-about-us</a>
The Society of Toxicology	Syngenta Fellowship Award in Health Applications of New Technologies	10/8/17	Toxicology	\$15,000	The award consists of a plaque, \$15,000 in fellowship funds, and travel support to the SOT annual meeting to accept the award and for travel to a Syngenta facility to present the results. This is a one year, non-renewable award.	The annual award, presented to either a third year (or later) graduate student or a postdoctoral trainee, is designed to support mode-of-action research aimed at characterizing dose-dependent effects of xenobiotics on mammalian systems in such a way that the causal sequence of key events underlying toxicity is elucidated. The work should permit a quantitative basis for extrapolation of the results from animal bioassays or animal models (in silico, in vitro) to humans at relevant human doses.	Application submitted online	<a href="http://www.toxicology.org/applications/af/awards_details.aspx?id=135">http://www.toxicology.org/applications/af/awards_details.aspx?id=135</a>	Org site: <a href="https://www.toxicology.org/index.asp">https://www.toxicology.org/index.asp</a>
Starkey Hearing Foundation	Program Grants	10/15/17	Hearing Health	Not listed	We use hearing as a vehicle to change lives around the world. If interested in applying for a grant, email <a href="mailto:grants@starkeyfoundation.org">grants@starkeyfoundation.org</a> or call 952.947.4575.	The foundation awards grants in the area of hearing healthcare, however, related areas such as health, human services, education, and community projects are also considered.	Email contact for application if interested in applying	<a href="https://www.starkeyhearingfoundation.org/Grants-Program">https://www.starkeyhearingfoundation.org/Grants-Program</a>	Org site: <a href="https://www.starkeyhearingfoundation.org/Who-We-Are">https://www.starkeyhearingfoundation.org/Who-We-Are</a>
American Psychological Association	Theodore Blau Early Career Award for Outstanding Contribution to Professional Clinical Psychology	11/1/17	Clinical Psychology	\$4,000	The annual program presents a one-time award of up to \$4,000 to an established clinical psychologist in recognition of accomplishments and promise in clinical psychology. Nominees should be no more than ten years postdoctoral degree.	Accomplishments may include the promotion of the practice of clinical psychology through professional service; innovation in service delivery; novel application of applied research methodologies to professional practice; positive impact on health delivery systems; development of creative educational programs for practice; or other novel or creative activities that advance the profession.	Online application via portal	<a href="http://www.apa.org/apf/funding/blau.aspx">http://www.apa.org/apf/funding/blau.aspx</a>	Past recipient: <a href="http://www.apa.org/apf/funding/blau.aspx?tab=4">http://www.apa.org/apf/funding/blau.aspx?tab=4</a>
Aniara	2017 Aniara Coagulation Research Grant program	11/1/17	Ehlers-Danlos syndrome	\$10,000	A single twelve-month grant of up to \$10,000 will be awarded in support of specialized coagulation/hematology research.	In 2017, Aniara will consider projects that deal specifically with EDS — Ehlers-Danlos syndrome — and its effects on hemostasis and thrombosis.	Online application	<a href="http://www.aniara.com/Aniara-Grant/About-the-Grant.aspx">http://www.aniara.com/Aniara-Grant/About-the-Grant.aspx</a>	Guidelines and instructions: <a href="http://www.aniara.com/pdf/ANIARACOA_GULATIONRESEARCH_GRANT.pdf">http://www.aniara.com/pdf/ANIARACOA_GULATIONRESEARCH_GRANT.pdf</a>
Group Foundation for Advancing Mental Health	Research Grant	11/1/17	Mental Health	\$15,000	Grants of up to \$15,000 will be awarded based on the importance of the research to the field, the seniority of the investigator(s), and the number of research applications received.	The foundation is seeking applications from researchers focused on the effectiveness of group psychotherapy.	Online application	<a href="http://www.agpa.org/Foundation/research-grants/grant-application">http://www.agpa.org/Foundation/research-grants/grant-application</a>	Link to application: <a href="http://www.agpa.org/Foundation/research-grants/grant-application">http://www.agpa.org/Foundation/research-grants/grant-application</a>

College of American Pathologists Foundation	John H. Rippey Grant for Quality Assurance	11/3/17	Pathology	\$5,000	Grants of up to \$5,000. Have to be CAP member.	Awards for innovative projects related to quality assurance, quality improvement in pathology, or patient safety that result in improved patient care.	Emailed application packet	<a href="http://www.cap.org/apps/cap.portal?nfpb=true&amp;cntvwrPtlActionOverride=%2Fportlet%2FcontentViewer%2Fshow&amp;windowLabel=cntvwrPtl&amp;cntvwrPtlActionFormContentReference=cap_foundation%2Frippey_grant.html&amp;state=maximized&amp;pageLabel=cntvwr">http://www.cap.org/apps/cap.portal?nfpb=true&amp;cntvwrPtlActionOverride=%2Fportlet%2FcontentViewer%2Fshow&amp;windowLabel=cntvwrPtl&amp;cntvwrPtlActionFormContentReference=cap_foundation%2Frippey_grant.html&amp;state=maximized&amp;pageLabel=cntvwr</a>	Org site: <a href="http://www.cap.org/apps/cap.portal?nfpb=true&amp;cntvwrPtlActionOverride=%2Fportlet%2FcontentViewer%2Fshow&amp;windowLabel=cntvwrPtl&amp;cntvwrPtlActionFormContentReference=cap_foundation%2Frippey_grant.html&amp;state=maximized&amp;pageLabel=cntvwr">http://www.cap.org/apps/cap.portal?nfpb=true&amp;cntvwrPtlActionOverride=%2Fportlet%2FcontentViewer%2Fshow&amp;windowLabel=cntvwrPtl&amp;cntvwrPtlActionFormContentReference=cap_foundation%2Frippey_grant.html&amp;state=maximized&amp;pageLabel=cntvwr</a>
American Tinnitus Association	Research Grants	11/15/17	Tinnitus	\$50,000	In 2017, ATA will award a grant of up to \$50,000 for innovative and high-quality research that substantively contributes to the scientific understanding of tinnitus and advances the search for a cure.	The program focuses on providing seed grants for the most innovative areas of tinnitus scientific exploration. Proposals are measured against ATA's "Roadmap for a Cure," a framework for how tinnitus research can best — and most rapidly — be used to achieve a definitive cure for tinnitus.	Submit electronically as both a word and pdf	<a href="https://www.ata.org/research-toward-cure/research-program/apply-grant">https://www.ata.org/research-toward-cure/research-program/apply-grant</a>	Roadmap: <a href="https://www.ata.org/research-toward-cure/research-program/roadmap-cure">https://www.ata.org/research-toward-cure/research-program/roadmap-cure</a>
American Physical Therapy Association	Catalyst grants	12/31/17	Physical therapy	\$15,000	Grants of up to \$15,000 will be awarded to support new physical therapist investigators or established investigators who are embarking on a new research agenda in the areas of physical therapist practice, leadership, administration, or education. Grants may be renewable (no-cost extension) for up to a year.	Projects looking to stimulate, encourage, and support research activities that enhance the body of knowledge related to health policy, clinical administration, global health, and the use of technology in physical therapy.	Online application	<a href="http://www.aptahpa.org/?page=34">http://www.aptahpa.org/?page=34</a>	Guidelines and Application: <a href="http://www.aptahpa.org/page/HPAGrant">http://www.aptahpa.org/page/HPAGrant</a>
American Psychological Foundation	Pearson Early Career Grant program	12/31/17	Psychology (early career)	\$12,000	A single grant of \$12,000 will be awarded. The recipient may use the grant monies for direct administrative costs related to his or her proposed project. APF does not allow indirect institutional or overhead costs.	The program's goals are to support the efforts of psychology practitioners to address areas of critical need in society, including but not limited to innovative scientifically-based clinical work related to serious mental illness, serious emotional disturbance, incarcerated or homeless individuals, children who are emotionally disturbed, and adults with serious mental illness; and to encourage early-career psychologists to devote their careers to underserved populations.	Application submitted online	<a href="http://www.apa.org/apf/funding/pearson.aspx">http://www.apa.org/apf/funding/pearson.aspx</a>	Past recipients: <a href="http://www.apa.org/apf/funding/pearson.aspx?tab=4">http://www.apa.org/apf/funding/pearson.aspx?tab=4</a>
American Psychological Foundation	Randy Gerson Memorial Grant program	2/1/18	Graduate student-psychology	\$6,000	Awards a single \$6,000 grant each year to a graduate student project in family and/or couple dynamics and/or multi-generational processes that advances theory, assessment, or clinical practice.	Preference will be given to projects using or contributing to the development of Bowen family systems. Priority also will be given to projects that serve to advance the work of Dr. Randy Gerson.	Apply online	<a href="http://www.apa.org/apf/funding/gerson.aspx">http://www.apa.org/apf/funding/gerson.aspx</a>	Past recipients: <a href="http://www.apa.org/apf/funding/gerson.aspx?tab=4">http://www.apa.org/apf/funding/gerson.aspx?tab=4</a>

Michael J. Fox Foundation for Parkinson's Research	Rapid Response Innovation Awards program	No deadline; applications accepted anytime.	Neurology- Parkinson's	\$75,000	Award one-year grants of up to \$75,000. *MJFF will hold a 45-minute conference call on the date and time listed above to clarify and explain the goals of this funding initiative and answer applicant questions. To participate in the call and receive call-in details, please RSVP via email to conferencecalls@michaeljfox.org. Informational Conference Call*: September 19, 2014 at 12pm US ET.	The RRIA program supports innovative, high-risk, high-reward projects tackling critical scientific and therapeutic roadblocks that, if successful, open new avenues for PD therapy development. The program accelerates work in real time through the use of a unique rolling submission deadline and six-weeks-or-less funding decisions. The program is well suited to projects with little-to-no existing preliminary data, but where hypothetical rationale is highly compelling and study results can make the case for continuing (or discontinuing) a line of research. Applicants may submit on any PD-relevant area of basic, preclinical and/or clinical research with a clear, achievable one-year goal.	Online Application	<a href="https://www.michaeljfox.org/research/grant-detail.php?id=3">https://www.michaeljfox.org/research/grant-detail.php?id=3</a>	Downloadable application and guidelines available on website
Autism Speaks	Suzanne and Bob Wright Trailblazer Award Program	Rolling	Neurology- Autism	\$100,000	Grants of up to \$100,000 will be awarded to support small investigator-initiated high-risk/high-impact projects that are potentially transformative and/or aim to overcome significant roadblocks in autism research within a twelve-month period. In particular Autism Speaks is seeking projects that may be too risky for regular research mechanisms.	Funding is restricted to projects that identify risk factors for ASD that can lead to prevention and improved diagnosis and treatment; lower the age at which ASD is detected and improve access to early intervention for children with ASD; enhance quality of and access to medical care for individuals with ASD; promote the development of safe, effective interventions and medicines to reduce core and associated symptoms of ASD throughout an individual's lifespan; and improve the health and outcomes of adults with ASD from a lifetime perspective.	Online Form/LOI	<a href="http://www.autismspeaks.org/sites/default/files/docs/sciencedocs/grants/trailblazer_rfa_2013_4-2-13.pdf">http://www.autismspeaks.org/sites/default/files/docs/sciencedocs/grants/trailblazer_rfa_2013_4-2-13.pdf</a>	The Trailblazer Award funds highly novel research. Applicants must have a track record of research experience.
Blue Cross Blue Shield Blue Care Network of Michigan	Physician Investigator Research Award Program	Rolling	Medical Research	\$10,000	The program does not support basic science, biomedical research including drug studies, or studies using animals.	The purpose of this award program is to enable physicians to explore the merits of a research idea by providing "seed" money to physicians who propose a pilot study, feasibility study or small research study to explore the merits of a research idea.	Mailed application	<a href="http://www.bcbsm.com/content/dam/microsites/foundation/physician-investigator.pdf">http://www.bcbsm.com/content/dam/microsites/foundation/physician-investigator.pdf</a>	Foundation: <a href="http://www.bcbsm.com/foundation/grants.html">http://www.bcbsm.com/foundation/grants.html</a>
Blue Cross Blue Shield Blue Care Network of Michigan	Investigator Initiated Research Program	Rolling	Health Care	\$75,000	Grants are typically in the \$50,000 – \$75,000 per year range. Exceptional projects will be considered for multiyear funding or funding requests in excess of \$50,000 – \$75,000. Foundation does not support basic science or biomedical research, including drug studies or studies using animals.	Projects that focus on the quality and cost of health care and appropriate access are considered priority and include: • Organization and delivery of health care services; • Evaluation of new methods or approaches to containing health care costs; • Evaluation of new methods or approaches to providing access to high quality health care; • Assessment and assurance of quality care; • Identification and validation of clinical protocols and evidence based practice guidelines	Mailed application	<a href="http://www.bcbsm.com/content/dam/microsites/foundation/investigator-initiated-program.pdf">http://www.bcbsm.com/content/dam/microsites/foundation/investigator-initiated-program.pdf</a>	Foundation: <a href="http://www.bcbsm.com/foundation/grants.html">http://www.bcbsm.com/foundation/grants.html</a>
Blue Cross Blue Shield of Michigan Foundation	Community Health Matching Program	Rolling	Health Care Access	\$50,000	Up to 2 years grant period. Match requirement dependent upon organization budget and % of Medicaid and/or uninsured patients served.	Matching funds are available for programs that help increase access to health care; address critical public health issues; improve the quality of care; and enhance efficiency.	Mail Application	<a href="http://www.bcbsm.com/content/dam/public/Consumer/Documents/help/faqs/community-health-match-grant-brochure-2012.pdf">http://www.bcbsm.com/content/dam/public/Consumer/Documents/help/faqs/community-health-match-grant-brochure-2012.pdf</a>	Application: <a href="http://www.bcbsm.com/content/dam/public/Consumer/Documents/help/faqs/community-health-matching-grant-app-2012.pdf">http://www.bcbsm.com/content/dam/public/Consumer/Documents/help/faqs/community-health-matching-grant-app-2012.pdf</a>

Charles Koch Foundation	Innovation	Rolling	Innovation	Not listed	Innovation is key to improving the well-being of individuals and societies. The introduction of new ideas, products, or methods enables individuals to use resources more efficiently, which in turns raises standards of living – particularly for the least fortunate. Especially interested in research that explores biological and medical ethics relevant to the pursuit of innovation among other topics.	Supporting research that furthers an understanding of the potential for innovation to help improve people’s lives and the conditions necessary for innovation to advance.	Online Application	<a href="http://www.charleskochfoundation.org/requests-for-proposals/innovation/">http://www.charleskochfoundation.org/requests-for-proposals/innovation/</a>	Application portal: <a href="http://www.charleskochfoundation.org/grant-application/">http://www.charleskochfoundation.org/grant-application/</a>
National Psoriasis Foundation	2017 Bridge Grants	Rolling	Psoriasis	\$100,000	New this year. Applicants may request up to \$50,000 for K-bridge or \$100,000 for R-bridge for one year. Those applications received before January 15, 2017 will be considered for project periods starting on July 1, 2017. Those received after January 15, 2017 will be considered for project periods starting the following year, on July 1, 2018.	Bridge Grants will support researchers who have submitted meritorious but unsuccessful K- and R- applications to the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS) with a focus on psoriatic disease or related comorbidities. Through this special opportunity, NPF intends to provide a critical year of additional support to near-miss applicants so that they can collect data to strengthen a future application.	Application submitted via portal	<a href="https://www.psoriasis.org/sites/default/files/2017_bridge_rfp.pdf">https://www.psoriasis.org/sites/default/files/2017_bridge_rfp.pdf</a>	Guidelines, instructions and links: <a href="https://www.psoriasis.org/grants">https://www.psoriasis.org/grants</a>
Robert Wood Johnson Foundation (RWJF)	Investigator Initiated Research to Build a Culture of Health	Rolling	Health Care	\$440,000	Applications will be accepted on a rolling basis beginning June 1, 2015. Applicants first must submit a two-page letter of intent (LOI) through RWJF’s online system and will generally be notified within eight weeks as to whether they are approved to submit a full proposal. Full proposals will be due two months from the date of notification. <b>Must be coordinated with Susan Miller.</b>	Support rigorous, high-impact, creative research projects to build and disseminate information for evidence-based approaches to building a Culture of Health. The program will also support efforts to assess outcomes and set priorities for action by encouraging and supporting creative, rigorous research on the impact of innovative programs, policies and partnerships on health and well-being, and on novel approaches to measuring health determinants and outcomes.	LOI submitted via online portal	<a href="https://anr.rwjf.org/viewCfp.do?cfpld=1224&amp;cfpOverviewId=">https://anr.rwjf.org/viewCfp.do?cfpld=1224&amp;cfpOverviewId=</a>	FAQ’s and guidelines: <a href="http://www.evidenceforaction.org/">http://www.evidenceforaction.org/</a>
Robert Wood Johnson Foundation that is managed by AcademyHealth	Changes in Health Care Financing and Organization program	Rolling	Healthcare management/Administration	100,000+	In January 2011, the foundation reauthorized the HCFO initiative for a total of \$5 million in funding to be awarded over approximately three years. Grants will be awarded in two categories — small grants for projects requiring \$100,000 or less and projected to take twelve months or less; and large grants for projects requiring more than \$100,000 and/or projected to take longer than twelve months. <b>Must be coordinated with Susan Miller.</b>	Supported projects may include examining significant issues and interventions related to healthcare financing and organization and their effects on healthcare costs, quality, and access; and exploring or testing major new ways to finance and organize health care that have the potential to improve access to more affordable and higher-quality health services. Researchers, as well as practitioners and public and private policy makers working with researchers, are eligible to apply. Projects may be initiated from within many disciplines, including health services research, economics, sociology, political science, public policy, public health, public administration, and law and business administration. Multidisciplinary teams and researchers who are just beginning their careers are especially encouraged to apply.	Online application	<a href="http://www.rwjf.org/en/grants/calls-for-proposals/2011/changes-in-health-care-financing-and-organization-hcfo.html">http://www.rwjf.org/en/grants/calls-for-proposals/2011/changes-in-health-care-financing-and-organization-hcfo.html</a>	There are different links for over or under \$100,000 requests available on the website

Simons Foundation Autism Research Initiative	SFARI Explorer Awards program	Rolling	Autism	\$70,000	Applications from investigators who are new to the field of autism but who have expertise that could be brought to bear on this complex disorder are encouraged. One-year grants of up to \$70,000, including indirect costs, will be awarded for selected studies. All applicants and key collaborators must hold a Ph.D., M.D., or equivalent degree and have a faculty position or the equivalent at a college, university, medical school, or other research facility. Non-renewable.	Through the program, the foundation supports research that seeks to increase our engagement with and understanding of the mechanisms underlying autism spectrum disorders or potential therapeutic approaches at multiple levels, including but not limited to studies focused on gene discovery, molecular mechanisms, circuits, anatomy, and cognition and behavior. Explorer Awards are intended to provide resources in support of exploratory experiments that will strengthen hypotheses and lead to the formulation of competitive applications for subsequent larger-scale funding by SFARI or other organizations. Innovative, high-risk/high-impact proposals are encouraged.	Applications submitted via online portal	<a href="https://sfari.org/funding/grants/explorer-awards-rfa">https://sfari.org/funding/grants/explorer-awards-rfa</a>	All materials and information on website
The Commonwealth Fund	Grant Program	Rolling	Health and social issues	\$200,000	Strictly LOI submission. Proposals are invitation only. Award amount based on previous grants	Promote a high performing healthcare system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including low-income people, the uninsured, minority Americans, young children, and elderly adults.	LOI submitted via online portal	<a href="http://www.commonwealthfund.org/grants-and-fellowships/grants">http://www.commonwealthfund.org/grants-and-fellowships/grants</a>	Instructions and portal: <a href="http://www.commonwealthfund.org/grants-and-fellowships/letter-of-inquiry">http://www.commonwealthfund.org/grants-and-fellowships/letter-of-inquiry</a>
Thrasher Research Fund	E.W. "Al" Thrasher Awards	Rolling	Pediatric health	\$500,000	The Fund awards grants two times per year, with no fixed number of awards given in each funding cycle or in each year. Seeks to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years.	Ideal applications address significant health problems that affect children in large numbers and offer the potential for practical solutions to these problems. Such solutions should be innovative and have the potential for broad applicability with low financial and/or technical barriers to implementation. Hypothesis-driven research is preferred over exploratory, hypothesis-generating research. Projects with a shorter distance to clinical applicability are given priority.	Emailed concept paper (if selected proposal will be invited)	<a href="https://www.thrasherresearch.org/SitePages/al-thrasher-award.aspx">https://www.thrasherresearch.org/SitePages/al-thrasher-award.aspx</a>	All templates available on website
