

# JANUARY Funding Opportunities

Sponsor Deadline	Sponsor	Disease/Focus	Type of Grant/Fellowship
Spring Award applications accepted beginning Sept 1, 2012; application deadline January 1, 2013	<a href="#">BD Biosciences</a>	A total of \$140,000 worth of BD Biosciences research reagents are awarded annually to 14 scientists. Through the grant program, BD Biosciences works to support innovation in research and development, helping to define the next generation of scientific breakthroughs.	<a href="#">Immunology Grant</a>
*Current AICR grant funding is limited by economic conditions; AICR will not issue a call for applications in 2012-2013 academic year. The expectation of AICR is to call applications for 2012-2013 academic year in the fall of 2013.	<a href="#">American Institute for Cancer Research (AICR)</a>	Funding research on the relationship of nutrition, physical activity and weight management to cancer risk	1. Investigator Initiated Grant
			2. Post Doctoral Awards
			3. Matching Grants
Applications are due 7/15/2013 for January 2014	<a href="#">American Diabetes Association</a>	These awards funded by Merck & Co., are granted to clinical diabetes investigators in the area of clinical/translational research to support a postdoctoral fellow. Applications must be initiated and completed by the mentor.	<a href="#">American Diabetes Association-Merck Clinical/Translational Science Postdoctoral Fellowship Award</a>
1/1/2013	<a href="#">JDRF International</a>	Recognize promising research within areas such as multicolor flow cytometry, cell signaling, cancer research, immune function, infectious diseases, and neuroscience research.	<a href="#">Immunology Research grants</a>
The LOI is due 1/31/2013; and the Applications are due 3/27/2013	<a href="#">JDRF International</a>	Immune Therapies - Studies Relevant to the Prevention of Human Type 1 Diabetes	<a href="#">Immune Therapies</a>
The LOI is due 1/01/2013; and the Applications are due 2/28/2013	<a href="#">JDRF International</a>	Glucose Control - Insulin Sensor Initiative	<a href="#">Glucose Control</a>

Application Deadline 2/1/2014	<a href="#">PhRMA Foundation</a>	Clinical Pharmacology: *Faculty Development Award *Paul Calabresi Medical Student Fellowship	<a href="#">Clinical Pharmacology</a>
Application Deadline 2/1/2014	<a href="#">PhRMA Foundation</a>	Health Outcomes: *Pre Doctoral Fellowships *Post Doctoral Fellowships *Sabbatical Fellowships *Research Starter Grants	<a href="#">Health Outcomes</a>
Concept submission date- February 15, 2013 at noon Mountain Time;proposal submission March 29, 2013	<a href="#">Thrasher Research Fund</a>	The Fund supports clinical/translational pediatric research. Emphasis is placed on projects with potential findings that would be clinically applicable in a relatively short period of time for the prevention, diagnosis and/or treatment of pediatric medical problems.	<a href="#">Early Career Award</a>

## MARCH Funding Opportunities

Sponsor Deadline	Sponsor	Disease/Focus	Type of Grant/Fellowship
Submission deadlines date are March 1 and September 1	<a href="#">American Academy of Family Physicians</a>	This program provides \$7,500 per project to support research that poses questions of high relevance to family physicians and their patients. Applications for studies with lower costs are also welcome.	<a href="#">Research Stimulation Grants</a>
3/17/2014	<a href="#">Damon Runyon Cancer Research Foundation</a>	The Foundation encourages all theoretical and experimental research relevant to the study of cancer and the search for cancer causes, mechanisms, therapies and prevention.	<a href="#">Fellowship Overview</a>
			<a href="#">Fellowship Award</a>
LOI-March 14, 2013; Full Proposal-May 13, 2013	<a href="#">Doris Duke Charitable Foundation</a>	The Doris Duke Innovations in Clinical Research Award (ICRA) provides funding for early-stage research projects in clinical investigation to foster innovations in clinical research that advance the prevention, diagnosis and treatment of human disease.	<a href="#">2013 Innovations in Clinical Research Award</a>
App. Opens 2/1/13; App. Deadline 3/1/2013	<a href="#">Juvenile Diabetes res Fdn Int'l</a>	Supports reseach grant applications that address a high prioirty research area for JDRF, but failed to receive funding(but scored within 10% of the funding payline for a review cycle of a research funding agency up to a year prior to the amended, competitive application.	<a href="#">High Priority, Short-Term Bridge Awards</a>
Deadline March 29th	<a href="#">American Epilepsy Society</a>	This program is intended to foster collaborative interactions between two or more established investigators* to make future grants related to epilepsy more competitive for larger awards, and to fuel multi-investigator projects. These small awards are designed to enable information exchange/technology transfer, travel of postdoctoral fellows between laboratories, and modest supplies for the project. These awards are designed to provide seed monies to investigators. Funds are total costs. No allowance for indirect costs will be awarded over the \$20,000 maximum funding level	<a href="#">Seed Program</a>

## APRIL Funding Opportunities

Sponsor Deadline	Sponsor	Disease/Focus	Type of Grant/Fellowship
April 1st	<a href="#">Cystic Fibrosis Foundation</a>	Awards are available to increase skills in epidemiology for M.D.s currently working in cystic fibrosis.	<a href="#">Summer Scholarships In Epidemiology</a>
LOI-April 1st; Application Deadline-2nd Wed of Sept	<a href="#">Cystic Fibrosis Foundation</a>	These grants are for developing and testing new hypotheses and/or new methods, and to support promising new investigators as they establish themselves in research areas relevant to CF. Proposed work must be hypothesis driven and must reflect innovative approaches to critical questions in CF research.	<a href="#">Pilot &amp; Feasibility Awards</a>
LOI-April 1st; Application Deadline-2nd Wed of Sept	<a href="#">Cystic Fibrosis Foundation</a>	This grant mechanism is intended to encourage the development of new information that contributes to the understanding of the basic etiology and pathogenesis of CF.	<a href="#">Research Grant</a>
As of April 1, ACS is restructuring this program and will provide information regarding deadlines as it becomes available.	<a href="#">American Cancer Society</a>	Institutional Research grants are block grants	<a href="#">Institutional Research Grants</a>
As of April 1, ACS is restructuring this program and will provide information regarding deadlines as it becomes available.	<a href="#">American Cancer Society</a>	Awards to insitutions to support physician training in accredited preventive medicine residency programs that provide cancer prevention and control research and practice opportunities	<a href="#">Physician Training Awards in Cancer Prevention</a>
4/12/2013	<a href="#">Angelman Foundation</a>	Angelman syndrome is a neurodevelopmental disorder caused by deficiency of the ubiquitin protein ligase UBE3A inthe brain. Applications in the preclinical, translational and clinical research areas that investigate all aspects of Angelman syndrome will be considered.	<a href="#">Research Grant</a>

MAY Funding Opportunities

Sponsor Deadline	Sponsor	Disease Focus	Type of Grant/Fellowship
10-May-11	<a href="#">American Diabetes Association</a>	This award supports career development for junior faculty investigators in the early stages of their research career. This award will supplement an award by the National Institutes of Health (NIH) using the R03 mechanism under the funding announcement titled, Grants for Early Medical and Surgical Subspecialists' Transitions to Aging Research (GEMSSTAR).	<a href="#">ADA-ASP Young Investigator Career Development Award in Geriatric Endocrinology</a>
Deadline date for Letter of Intent May 10,2013	American Thoracic Society	For the first time, the ATS Foundation will offer one unrestricted research award in each of the following categories: pulmonary, sleep, and critical care. Though these unrestricted awards have always been available to sleep and critical care investigators, the majority of applications have focused on pulmonary research. By committing funds to sleep and critical care research, the ATS Foundation is aiming to increase the number of high quality applications received in these areas.	<a href="#">ATS Foundation Unrestricted Research Grants</a>
Partner Grant deadline for Letters of intent are May 10, 2013. Please visit <a href="http://alpha-1foundation.org">alpha-1foundation.org</a> for information about our partner.	<a href="#">American Thoracic Society</a>	The target audience for these research grants will be investigators interested in research that is relevant to alpha-1 antitrypsin deficiency (Alpha-1). The focus of the research grants will be programs that have a high likelihood to advance the understanding of Alpha-1. Applications are encouraged from new faculty members who have a strong link with one or more senior investigator. Applicants may request up to \$40,000/year for 2 years for salaries, supplies or a combination of these two. One of the investigators must be an ATS member at the time of application, and the Principal Investigator must be an ATS member at the time that the grant is awarded. Indirect costs will not be paid to the applicant's institution.	<a href="#">ATS Foundation/Alpha-1 Foundation Research Grant</a>

MAY Funding Opportunities

Sponsor Deadline	Sponsor	Disease Focus	Type of Grant/Fellowship
Partner Grant deadline for Letters of intent are May 10, 2013.	<a href="#">American Thoracic Society</a>	The Fellowship Career Development Award is designed to support the research of a fellow undergoing training in Idiopathic Pulmonary Fibrosis-directed research. Applicants should submit proposals for mentored projects addressing important areas of investigation in Idiopathic Pulmonary Fibrosis. Applicants may request up to \$50,000 for one year.	<a href="#">ATS Foundation/Boehringer Ingelheim Pharmaceuticals, Inc. Career Development Award in Idiopathic Pulmonary Fibrosis</a>
Partner Grant deadline for Letters of Intent are due May 10, 2013. Please visit <a href="#">child-foundation.com</a> .	<a href="#">American Thoracic Society</a>	The purpose of this grant is to accelerate research in childhood lung diseases by supporting functional studies of novel genetic variants that have been linked to rare, progressive, familial pulmonary conditions. The goal is to characterize the biological mechanisms by which a genetic variant results in childhood diffuse or interstitial lung disease, and to leverage functional/mechanistic insight to develop new treatments. Applicants are encouraged to integrate studies of individual genes with pathways and regulatory networks.	<a href="#">ATS Foundation/chILD Foundation Research Grant</a>
Partner Grant deadline for Letters of Intent are due May 10, 2013. Please visit <a href="#">hpsnetwork.org</a> for information about our partner	<a href="#">American Thoracic Society</a>	The target audience for these research grants will be investigators interested in research that is directly relevant to lung disease that results from Hermansky-Pudlak Syndrome. The focus of the research grants will be programs that have a high likelihood to advance the understanding of Hermansky-Pudlak Syndrome-associated lung disease. Applications are encouraged from new faculty members who have a strong link with one or more senior investigator	<a href="#">ATS Foundation/Hermansky-Pudlak Syndrome Network Research Grant</a>
Partner Grant deadline for Letters of Intent are due May 10, 2013. Please visit <a href="#">coalitionforpf.org</a> for more information about our partner	<a href="#">American Thoracic Society</a>	The focus of the research grant will be programs that have a high likelihood to advance the understanding of pulmonary fibrosis. Applications are encouraged from new faculty members who have a strong link with one or more senior investigator.	<a href="#">ATS Foundation/Coalition for Pulmonary Fibrosis/Pulmonary Fibrosis Foundation Research Grant</a>

Sponsor Deadline	Sponsor	Disease/Focus	Type of Grant/Fellowship
RFA release date-7/1/2013; Application system open date-TBA; Preapplication submission date-TBA	<a href="#">Susan G. Komen for the CURE</a>	PBT-DR grants are intended to establish or sustain a training program headed by a mentor(s) to provide pre-masters or pre-doctoral students with the analytic, research, scientific, clinical and/or public health skills. These skills are critical to effectively explore the basis for differences in breast cancer outcomes and translate research discoveries into clinical and public health practice. PBT-DR grants have the ultimate goal to eliminate disparities in breast cancer outcomes across population groups.	<a href="#">Post Baccalaureate Training in Disparities Research (PBT-DR)</a>

8/1/2013	<a href="#">Society for Academic Emergency Medicine (SAEM)</a>	The Education Fellowship Grant strives to foster teaching, education, and educational research in emergency medicine at faculty, fellow, resident and medical student level learners. The mission of the grant is to develop the academic potential of the selected fellow by providing support for a dedicated two-year training period that includes an advanced degree in education	<a href="#">Education Fellowship Grant</a>
8/1/2013	<a href="#">Society for Academic Emergency Medicine (SAEM)</a>	The SAEM Education Research Grant strives to foster education research in emergency medicine at faculty, fellow, resident and medical student level learners. The mission of the grant is to provide support for a medical education research project.	<a href="#">Education Research Grant</a>
8/1/2013	<a href="#">Society for Academic Emergency Medicine (SAEM)</a>	To provide support to an emergency medicine academician for two years of concentrated training and mentorship with emphasis in research methods. The award is intended to support the development of sound research skills rather than to support a specific research project. To enhance the likelihood of the selection of an academic and research career by the recipient. To establish a departmental culture that will continue to support research training independent of the SAEM award. To encourage further academic development and research involvement of emergency medicine academicians.	<a href="#">Research Training Grant</a>

SEPTEMBER Funding Opportunities

Sponsor Deadline	Sponsor	Disease/Focus	Type of Grant/Fellowship
Submission deadline date is September 1 and March 1	<a href="#">American Academy of Family Physicians</a>	This program provides \$7,500 per project to support research that poses questions of high relevance to family physicians and their patients. Applications for studies with lower costs are also welcome.	<a href="#">Research Stimulation Grants</a>
Deadline September 30th	<a href="#">American Epilepsy Society</a>	This program is intended to foster collaborative interactions between two or more established investigators* to make future grants related to epilepsy more competitive for larger awards, and to fuel multi-investigator projects. These small awards are designed to enable information exchange/technology transfer, travel of postdoctoral fellows between laboratories, and modest supplies for the project. These awards are designed to provide seed monies to investigators. Funds are total costs. No allowance for indirect costs will be awarded over the \$20,000 maximum funding level	<a href="#">Seed Program</a>
Application Deadline for 3rd, 4th & 5th Yr Fellowships: First Wednesday of September	<a href="#">Cystic Fibrosis Foundation</a>	The intent of this award is to encourage specialized training early in a physician's career and to prepare candidates for careers in academic medicine. Training must take place in a CF Foundation-accredited care center and must encompass diagnostic and therapeutic procedures, comprehensive care and CF-related research. Applicants must be eligible for Board certification in pediatrics or internal medicine by the time the fellowship begins.	<a href="#">Clinical Fellowships</a>
